RESORT 2023 LOOKBOOK

FAITH MCNABNAY | TXA 355C | RESORT 2023

Icelandic brand Marine proudly presents high-quality luxury womenswear made sustainably in Hveragerði. The Marine woman values luxurious, sustainable, textiles and expert craftsmanship in her clothing. She finds beauty in the little details, and enjoys standing out from the crowd with effortlessly chic clothing. The Marine woman is inspired by nature and feels a close connection to the outdoors. She is a dedicated and intelligent business woman, but is the life and beauty of any party. She values the finer things in life, and is frequently spotted with a glass of white wine.

The Marine Resort 2023 collection is inspired by the ocean and its serene beauty. The pieces featured in the collection are meant to evoke feelings of tranquility and purity, as if one were on the beach. Designers for the Marine Resort 2023 collection were drawn to the unpredictable essence of the ocean and its constant pattern of waves, seemingly random, but instead represent small pieces of a larger art we call nature. This collection provides our customer with a capsule wardrobe full of unique and elevated pieces that can suit her needs throughout her trip. Mix and match satin skirts with linen tops for endless outfit options from relaxing at the beach to a romantic dinner.
